Subject: Freedom of Information request

Hello Ms. Lane,

I have seen online that EPA Region 6 is involved in the clean-up and remediation of the CES Environmental site in Houston, TX. I am trying to locate a Certificate Of Disposal for a load of corrosive waste water that was sent there in 2009. Specifically, I am referring to the following shipment:

CES Environmental EPA ID# TXD008950461
Hazardous Waste Manifest#002535000FLE
Shipment received 3/27/2009
Generator EPA ID# MSD122687064

Ms. Lane, I need to obtain confirmation of proper disposal by a Certificate Of Disposal for this shipment. Can you send me a copy of this form or its equivalent? If this information is not available, could you direct me to where I could obtain it?

Thank you for your help in this matter!
Joseph
